PARIS, Sept. 11.-While nothing has officially been done or signed, I understand that Ambassador De Margerie and Chancellor Stresemann have drafted a rough outline of what the Much More Needed, Red new reparations bill will be, which reduces the allies' demand on Germany about 51,000,000,000 gold marks (\$12.750,000,000) from 132,000,000,000 gold marks (\$23,000,000,000) plus whatever France must eventually pay Great Britain and the United States.

The alacrity with which the Ger-mans seize a reduction in the total supports rumors that Berlin already has from France, with possibilities of a general writing off of obligations if destroyed.

MAYOR WILL ACT **TODAY TO AVERT** CAR LINE TIEUP

With a definite wage strike threat of 3,000 skilled mechanics of the street car line spurring him, Mayor Dever today will once again undertake to prevent a tieup, or attempted tieup, of the Chicago surface lines, as he did last June when the conductors and motormen, including the "L" employés,

were on the point of walking out. If he fails to find a common ground for company officials and union leaders, some of the latter gave warning last night, a strike may be expected

Declaring himself against probation for persons charged with robbery with a gun, Chief Justice John R. Caverly of the Criminal court yesterday denied leniency to three youthful "sheik" bandits of Oak Park. The boys—James Curtis, Stanley Rogowski, and Gus Kuyawski—charged with having held up and robbed John L. Groggin of 163 North Humphrey avenue, Oak Park, sought probation on the ground of clear previous record.

"Chicago is going to be safe from gun toters, at least so far as lies in the power of the courts," declared Judge Caverly. "Gun toting is one of the most helmous offenses in the criminal code. If the victim had shown the least resistance these boys probably would be on trial for their lives today.

I can grant no lenlency."

After he had declared he would continue to protest against probation should a change of venue to another court be requested, the boys' attorney asked a continuance to Oct. 4, indi-cating he would seek a jury trial. On conviction the penalty is from ten years to life in the penitentiary.

Finds No Evidence Miss Rawitch Was Struck.

There is no mystery, as far as the There is no mystery, as far as the police are concerned, as to how Ethel Rawitch, pretty and popular 16 year old pupil of John Marshall High school, was injured Monday morning, Capt. James Gleason declared last night. Every other possibility was eliminated, he said, leaving only the conclusion that she was accidentally struck by a door that was pushed open forci-

bly against her.

This belief received the confirmation of Sergt. Richard Barry who was assigned by Chief of Detectives
Michael Hughes to investigate the case. Barry reported back that un-questionably the injury was accidental and that no one wilfully struck the girl down with a club, pipe or base-ball bat as some had surmised. Believes She Will Recover.

Dr. F. E. Wynekoop, in attendance upon Miss Rawitch at the Garfield Park hospital, said last night that he believed the girl would recover and that in perhaps another twenty-four hours she would be in condition to tell

"I io not say that Miss Rawitch could not have been injured as she is by a door," Dr. Wynekoop said. "What I said was that it didn't seem probable violent blow from an opened door. Ye t may have happened just that way. Several X-ray experts agreed with me that it would have taken a tremendou force to cause the skull fracture whic nearly six inches long.".

How Police Head Views It. Capt. Gleason, on being told that the girl in moments of consciousness clear-ly recalled everything until after she entered the school building at ten minutes after 10 o'clock, but did not recall

Lawyer Finds Them Based on "Fakes."

Cold legal logic snatched the shining fortune left by old Charles Christopher Springer in 1738 from the slutch of the heirs and left in its place statements branding the claim a myth and a dream, and this latest move-ment largely "bunk." Behind Closed Doors.

The gathering was called the annual business meeting of the corporation formed last March. The proceedings

Attorney William H. Chadwick, who recently made a personal investigation of Wilmington, and Charles E. Springer, known as the starter of the sch board inquiry, were the two heirs who brought home the bitter truth.

Woman Admits Its Fake.

Attorney Chadwick presented a signed statement from Mrs. Mary Springer McMahon, originator of the ovement, admitting that all her claims were fraudulent. The "\$20,-000,000 in a Philadelphia bank," the "mausoleum in Sweden just bursting with jewels and precious heirlooms." the "missing page from the records, which would prove the claim," Attorney Chadwick declared, all were fakes.

NEGROES LEAVE SOUTH BEND IN FEAR OF KLAN

the signature, "K. K. K.," has driven half of South Bend's Negro population

More than 1,200 Negroes have left in the last twenty-four hours by freight, passenger and interurban trains and automobiles, according to a colored law-yer, who himself remained in hiding during the night, when many feared a "riot."

Extra police are patrolling the colored section and all stores in the city have been ordered to discontinue the sale of firearms and ammunition. Dealers report, however, that \$2,000 worth of this merchandise have been sold during the last few days and the supplies of many stores are exhausted.

The letter which threw the scare into the Negroes was received by Clarence Elliott, a colored soft drink dealer. It threatened to abduct from the county jail Charles Harp, colored, who recently confessed the killing of Patrolman James Smith and the wounding of Patrolman Burch, and then to "clean up to "cl

KERMANS

Never urges you to buy a gown unbecoming to you

KERMANS is well aware of the practice followed by saleswomen in some stores of urging customers to buy this or that gown or wrap regardless of the fact that it may not be becoming, or is unsuited to their individual style. A gown may be beautiful, beyond question, and still not be the correct one for many women.

So far as we are concerned we do not regard this as modern sales sense, and our saleswomen have been educated to study the customers' appearance first. The result is that all our customers remember

their visits here with distinct pleasure, instead of feeling that we were interested only in making a sale.

After all, it is common sense. Selling a woman something which later on proves unsuitable would be lost motion and the creation of dissatisfaction. We feel it is better to do it right—when the purchase is made.

And that's another reason why the KERMANS stores are the fastest growing, specialty stores Chicago has ever known. Think it over.

And never forget that although KERMANS has become known all over Chicago and the Middle West for the "distinctiveness" of its Modes, prices are never high.

One of our experts at Mr. Firpo's training quar ters reports that Lavelle, the Argentine friend and trainer of the Wild Geranium of the Pampas, starts off the day's work by saying: "Listo, campion." Our expert, familiar with the official language of the training quarters, renders this into English as "Ready, champion."

Thereafter in all the subsequent proceedings the trainers use mental suggestion on the Wild Geranium. If THE TRIBUNE had not sent a Spanish speaking expert from the sporting department to Atlantic City, the psychology of Mr. Firpo's prep-

Still "Best in the Long Run"

There is always one best quality. In tires, it is THE SILVERTOWN. By tradition and performance it has always stood, and still stands, for the perfection of the cord. Years and changing standards have established its supreme quality as they have spread its fame. The best cord tire when it was the only cord, it remains the best when there are many. More than ever before, SILVER-TOWN today means "Best in the Long Run."

EXPECT GREAT THINGS in the NEW CADILLAC

Even the superb quality which you have long associated with the name Cadillac is no adequate measure of the merits of the New V-63.

The simple truth is that Cadillac has advanced its own standards and achieved, in this car, heights of quality which are strictly new.

Your attention is directed, particularly, to these three elements:-

The New Cadillac V-Type 90°, 8-cylinder engine - harmonized and balanced by entirely new principles of design to a degree of smoothness unapproached in automotive manufacture.

New Body Styles - destined by their graceful, symmetrical design, distinctive finish and exquisite appointments, to be the center of admiration in any company.

Cadillac 4 Wheel Brakes-a safety factor developed with the care and thoroughness characteristic of Cadillac engineering.

New delights await you also in enhanced dependability, ease of control, riding restfulness and, indeed, in every phase of car performance

It is entirely logical that Cadillac, pioneerleader of eight-cylinder manufacture in America, should now raise multi-cylinder practice to an even higher pitch of excellence.

This is exactly what has happened in the New V-63, and Cadillac urges you to approach this fine car with great expectations.

purchasing the stock they had no doubt they were buying ito a concern which was "the same as the Yellow Cab company." Dory is said to have also sold three other policemen stock.

"If the investigation warrants," said Assistant State's Attorney Joseph P. Savage, "I will bring the matter to the attention of the grand jury."

Mr. Savage directed his special attention to one piece of advertising, a reproduction of a newspaper article headed "Yellow Cab Company Cuts \$82,000,000 Meion," which described a dividend distribution of the Chicago concern. In another place a reference was made to the cooperation plan in effect with Yellow Cab.

Saying a thing that is hard to say

MORE CALLED TO EXPLAIN

There is more than one way to convey an idea.

Pictures sometimes tell a story that pages of words can't explain.

Facts can be vividly expressed by graphs or charts where the plain figures would tire you out.

A diagram can describe an operation that photographs or paragraphs do not adequately describe.

Cartoons are often more expressive than columns of type.

Sometimes color does it.

Printing is a resourceful art. If there is something you want said, there are many ways that printing can say it for you.

To make it simpler to determine what kind of printing will say or do some definite thing, S. D. Warren Company has issued a number of books dealing with more effective printing.

> better paper better

Exemples of how somebody else has met a difficulty analogous to your own are always helpful. One of these Warren books recently issued shows ways of making use of the Illustrated Letter. This book may be obtained free from distributers of Warren's Printing Standard Printing Papers.

"You Bet I Care Who Made the Oil"

THE experienced motorist—the driver in heavy traffic— I the man who drives many hours a day-specifies Polarine. He takes no chances. He wants to know who guarantees the quality of the motor oil he uses.

Drivers of taxicabs and commercial cars are heavy users of Polarine. They know that scientific lubrication is more than an economy—it is a necessity. And they know that the name "Standard Oil Company (Indiana)" means scientific lubrication. Continually increasing sales prove that Polarine is delivering the best lubricating service obtainable.

There is a grade of Polarine which exactly fits the needs of your car (consult chart). In manufacturing Polarine the bore and stroke, piston design, valve construction, lubricating and cooling system—and all other mechanical features are considered carefully. Polarine insures full compression, hence, full power.

Made in Five Grades

One of these will correctly lubricate your engine. It is of the right viscosity under all temperatures. Polarine resists heat—it does not break down—it maintains a perfect film between the moving metal parts. There's never a "dry spot" when you use Polarine. Polarine limbers up quickly in cold weather. This means easy

starting-less wear and tear. It pays to ask "Who made this oil?" Polarine is made by the Standard Oil Company (Indiana). For the makers of Polarine have the organization to produce the right lubricants and the pride of sustained ideals to maintain the quality of production over long periods of years. Quality always follows the name "Standard."

train for the city with an empty pursa, after my ticket had been bought. There was plenty of time to walk from the station to the office and this was pay day.

After getting on the train I settled down to read a book, hardly noticing a girl who entered the car with whom I was slightly acquainted. I became so absorbed in the book that I was carried past my station, and the first thing I knew I was in the depot down town, six miles from the office, and it was nearly 9 o'clock.

I told my acquaintance of my predicament, thinking she might voluntees assistance, but found she had started out as I had—with money enough to get to the office.

There I was, stranded, six miles from the office, with no carfare and the minutes passing rapidly. There seemed to be nothing else to do but accept her invitation to accompany here, to the office and get a dime from some one. I followed her in and waited while she explained the situation to the manager. He offered me a half dollar, then a quarter, but. TRIBUNE COOK BOOK

BY JANE EDDINGTON. The Cooking Pot.

When an artist is set to Illustrate kettle, ten to one he will represent pot. Perhaps this is because there stolen into his subsconsciousnes from the long history of the race, the cooking pot fact which the writer, an artist as well, uses symbolically when he speaks of something he does as a "pot boiler." Yet a cooking pot, often of round bottom, is not what we need for either gas or electric cooking; no that compromise between pot and kettle, the kettle which bulges just above

The old pot was the one and only utansil often, for generations, among the poor, while the child babbles of it in his Mother Goose rhymes - about pease porridge hot and cold in the pot, or about the little drumming husband in the measuring pot, etc. The pot was brought to fame in pot-au-feu [pot over the fire] but it has become so much a matter of history in apart-ment cooking, rather than the old fireplace cooking, for which it was per-fect, that a man of wealth has but recently collected pot hooks for a nuseum. These were hung from the crane, you know, and the crane was hung in the chimney of a new home with merry feasting. See Longfellow's Hanging of the Crane.

The old pot hooks, hand wrought, were often of most interesting design, and the pots that hung from them were passed on as precious inheritances. They generally had a round bottom with legs, and were indispensable in utilizing the last point of heat in a bed of coals, but they could hang in the flame as well for the boiling.

The four foreigners who won their matches today were B. I. C. Norton, the South African; Manual Alonso, the dashing Spaniard; Jacques Brugnon, French Davis cup player, and F. R. Leighton Crawford of England.

A warm, sunny, and windless day made conditions ideal for players and spectators. Approximately 7,000 persons saw the sixteen matches played through in less than four hours, only two going to five sets, and several of them being finished in less than one hour.

By Drothy Klotz of Indian Hill and Miss Ruth Shults of Jackson Park, considered by many as the probable finalists for the women's public parks championship golf title of Illinois, both advanced yesterday at Columbus park, winning easy first round matches.

Miss Klotz defeated Mrs. F. J. Bradley of Lincoln park, 9 and 7, while Miss Shultz triumphed, 9 and 7, against Mrs. J. P. King of Marquette park. Miss Shultz who tied at 81 with Miss Klotz in the qualifying round, played out her medal score yesterday, and finished with 39-41—80, the best figure made so far. Her card was as follows:

Maroons Look Strong.

In order to send the vast throng on its homeward way rejoicing over a victory, Coash Zuppke will bend every effort to develop a team which will beat Chicago. The little coach, however, has a task in his hands because the Marcons should be every git as powerful as last year, while the backs, with a year's experience, should be among the best in the middle west. Groups of Illinois alumni and other followers of Orange and Blue gridiron fortunes, have already chartered specual care, while the Illini club of Chicago is figuring on a special train. Al cago is figuring on a special train. Al Mchr. father of the former Illinois player, has chartered three cars and exercises. The same is true of other stanch Illinois men and indications are every seat in the mammoth sta-dium will be occupied.

Another Hig Day at Iewa.

Iowa, with its modern up to date steel stadium, will celebrate home-coming on Oct. 20 when Illinous will furnish the opposition. Hawkeye alumni residing in Chicago intend to make the trip in a special train and no other alumnus than Judge M. L. Mc-Kinley of the Superior court, a former Iowa football player, is one of the most prominent in making arrangements.

Northwestern will be Purdue's opponent when the Boilermakers celebrate homecoming at Lafayette on Nov. 17. Indications are both teams will be stronger than last year and regardless of Purdue's opposition in the big event of the fall at Lafayette, the alumni turnout to support the team, regardless of whether it is a foregone conclusion the eleven will be beaten. Another Big Day at Iowa.

Wisconsin has arranged two big events at Madison during the fall and it is fortunate the seating capacity will be adequate to handle the crowds. Homecoming will be celebrated with the playing of the Minnesota game on Oct. 27, while Nov. 17, the day that it will be readily seen the Badgers will play to capacity on both days. Illinois will be Ohio State's opponent

tion will be different this year. Regardless of the strength or weakness of the combatants, the struggle at Columbus should attract a crowd which should just about fill the gigantic stadium dedicated last fall when Michigan was the Buckeyes opponent. Northwestern will stage its homecoming game with lowa at Evanston to Nov 24. It was originally planned.

Why industrial bonds are in strong public demand

It is the industrial companies which provide the materials or every-day life-food, building material, steel products and the thousand and one manufactured articles which go to make life worth while.

Without the products of industry, civilization would slip back. Without the resources provided through the active demand for industrial bonds, these corporations could not develop to serve the requirements of the nation.

The products of our great American corporations are necessities which tend to insure to these companies a stable volume of business and good average earnings.

Because of the strong position of these corporations, there is a large and increasing demand for their bonds.

Federal Securities Corporation assumes the burden of carefully investigating the credit reputation, value of the assets, the earning record, the product, and the management of the corporation before selecting industrial bonds for investment of its clients.

There is no separate school district or county debt in Norfolk and the above represents the total bonded indebtedness of the City.

THE CITY OF NORFOLK is the second largest city in the State of Virginia and is one of the most important seaports on the Atlantic coast. The City is served by eight trunk line railroads which are connected by a local belt line. The industries are well diversified as the City is unusually favorably located as a manufacturing, commercial and shipping center.

Population, 1922, estimated, was 155,300

These Bonds constitute a direct and general obligation of the City of Norfolk and are payable from an unlimited ad valorem tax levied against all taxable property therein. The charter of the City of Norfolk requires that taxes shall be levied annually sufficient to pay interest and create a sinking fund which will return these Bonds at maturity. We are informed that the sinking funds, which are handled by an independent commission, are up to date.

The proceeds of these Bonds will be used for the following purposes: \$2,000,000 for construction of municipal docks and terminals, and \$1,955,000 for general improvements.

CITIZENS TRUST AND SAVINGS BANK, LOS ANGELES, Trustee

We summarize the following information from a letter of Mr. H. E. Poronto, President of the Company:

Business: The Central Manufacturing District of Los Angeles is an industrial organization which furnishes sites and plants to diversified industries. It is closely modeled after the Central Manufacturing District of Chicago.

The same personnel which has successfully developed and operated the Central Manufacturing District of Chicago, the Chicago Union Stock Yards, and the Chicago Junction Railway is in charge of all operations of the Central Manufacturing District of Los Angeles. The Executives in charge of Los Angeles operations include J. A. Spoor, Chairman of the Board of the Union Stock Yards & Transit Co., of Chicago; A. G. Leonard, President, Union Stock Yards Transit Co., Chicago; H. E. Poronto, Manager of the Central Manufacturing District of Chicago; and Richard Fitzgerald, for many years President of the Chicago Junction Railway, and one of the ablest terminal railway men in the country.

Property: The property of the Central Manufacturing District of Los Angeles comprises 200 acres located in what is known as the East Los Angeles Industrial Section. It is bounded, roughly, by the Union Pacific "San Pedro Line" and Downey Boulevard on the West, by the Union Stock Yards on the North, the Los Angeles River on the East and Fruitland Avenue on the South. The property as a whole is located approximately four miles directly southeast from Seventh and Broadway and can be reached in about thirty minutes from the down-town section. The District is directly in line with the industrial expansion towards Los Angeles Harbor and on the direct line of the railroads leading to the harbor, which makes it a most desirable location for industries receiving and shipping through that port.

Security: These bonds will be secured by a first mortgage or Deed of Trust on all real properties of the company now owned or hereafter acquired from the proceeds of sales of bonds or mortgaged property. The properties of the Central Manufacturing District, Inc., upon completion of the financing, have been appraised at \$5,234,402.65. The \$1,750,000 of these Series "A" Bonds represent approximately 33% of the total security covered by the mortgage. Additional series of Bonds may be issued in the future, but

under the Trust Deed the total amount of Bonds outstanding must never exceed 50% of the total property value securing same.

For the 12 months ending July 1. Estimated 1924, it is estimated that the con-Earnings: solidated net earnings before bond interest of the Central Manufacturing District, Inc. and of the Los Angeles Corporation (the guarantor company) will exceed \$290,000 or over 23/4 times the maximum interest charges on this issue of bonds.

Guarantee: These Bonds will be unconditionally guaranteed principal and interest by the Los Angeles Corporation, which, upon completion of this financing, will have a net worth of \$6,284,961.41. The Los Angeles Corporation is a holding company owning all the issued stock of the Central Manufacturing District, Inc., the Los Angeles Union Stock Yards and the Los Angeles Junction Railway. It also possesses substantial stock holdings in the Southwest State Bank, the Central Manufacturing District Terminal Company and other concerns.

Prominent among the stockholders of the Los Angeles Corporation are John A. Spoor, John J. Mitchell, H. E. Poronto, A. G. Leonard, Richard Fitzgerald and Thornhill Broome, all of Chicago; Frederick H. Prince and George Peabody Gardner of Boston; Eugene V. R. Thayer of New York City, and P. D. C. Ball of St. Louis.

Improvements: The Los Angeles property is now being improved with the following modern fireproof structures: an eight-story tower and office building, six-story terminal building with 1,000,000 square feet of floor space; plants now being erected by the District for the Southwest Lumber & Supply Company, the Globe Soap Company and Cement Products Company, besides various buildings of the Federal Refrigerating Company, representing an investment of over \$2,000,000. The latter, although not under the mortgage securing these Bonds, adds greatly to the value of the entire District.

Purpose: The proceds of these Bonds will be used to complete improvements now under construction and contemplated on the proerty and to refund present indebtedness.

railroads as a basis for rate making.

Shifting the center of the wool trade from Boston to Chicago by the pooling of wool and the financing of organized fleece growers through the new intermediate credit system was the hope held out by leaders at the wool conference held here yesterday.

L. M. Corey of Oklahoma, member of the federal farm loan board, in speaking at the meeting of banks, wool growers, and coöperative association representatives, said that eastern capital is needed in the midwest. Gray Silver, Washington for representative of the American Farm Bureau federation, also spoke at the meeting, discussing the adequate financing of coöperative marketing.

Traders paid little attention early to freezing temperatures in the Canadian northwest, and the forecast for frost in parts of the American northwest, but after a decline of around 1c the market became oversold and frost talk was a factor in causing a strong rally. Longs sold September on a fair scale and it finished at \$55,000, while December was \$54,000 and May \$65,000. Cash demand was only fair.

This Could Happen in Your Business!

Suppose one of your best customers was a million dollar concern. Had fine credit standing. Then suddenly failed, owing you thousands of dollars.

The J. E. Pinkham Lumber Co., of Seattle, recently had just such an experience. In acknowledging our check for \$12,532.11, in payment of their losses, they say this about

Credit Insurance

"Considering that the larger part of our losses paid by your company at this time was due to the failure of a million dollar concern, whose credit and financial standing we did not question, it is very gratifying to us to have been under the protection of one of your bonds."

Maybe you feel secure about your customers, but remember, bad debt losses come without warning. Why not protect yourself against them, like the Pinkham Company, with American Credit Insurance?

Starting in 10@20c higher yester day's hog market weakened with part of the advance lost, yet prevailing prices are practically back to high point of the year. Top selected reached vious Tuesday, 20c above a year ago and \$1.10 higher than two years ago. Dwindling receipts and higher prices at outside points were strengthening factors in the trade. Big packers, however, followed the upturn reluctantly. ulators purchased freely. Gener-

al quality fair. Cattle receipts yesterday at 6,000 were 4,000 below expectations and quality graded rather poor. Better kinds met with a good will, selling strong to 25c igher. Veal calves advanced 25@50c. and western rangers rated strong to 10c higher. Shippers took most of the choice offerings, paying \$12.75 for 1,298 @1.610 lb steers, \$12.60 for 1,050 lb yearlings, and \$12.00 for Texas bred yearlings averaging 925 lbs. Comparatively few/sold above the \$11.00 mark. Fat range steers reached \$9.25, with some western feeders at \$9.15.

Lambs Reach \$14.00. Pat range lambs brought \$14.00 yes-terday, equaling the highest prices paid by killers in about two months. Soles 35@50c gain, top price standing 75c higher than beet fat lambs provious Tuesday. Although feeders shared in part of the sharp advance, they sold generally on the sharp advance, they sold generally on a level with best killing stock, for the first time in over two weeks. Narrow sutlet met the small supply of heavy sheep, with prices unchanged, while light handy killing kinds and feeders sold fully steady to strong. Yearlings advanced 25c at \$11.25.

Seven western markets received 64,000 cattle, 87,000 hogs, and 67,000 sheep.
